It was also stated that another civil governor friendly to General Murguia was being sent north to take charge of affairs in Chihuahua. General Enriquez is now in western Chihuahua where he has been holding the command of his unit since he fled from the state capital last Friday. He is expected to be assigned to another state and the present serious situation in the north relieved.

rumors of fighting between the Murguia and Enriquez followers continue to be received here today but are not generally believed.

The recall of General Enriquez to Mexico City by President Carranza, if confirmed, is expected to end the tense situation now existing in the Chihuahua state capital.
